MOE Digital Transformation Roadmap 2023-2027

1

2566
TRADITIONAL

Various agencies in jurisdiction of MOE has many systems developed to suit each agencies' missions. Those are to serve agencies' responsibilities, however they are not connected, nor integrated with different agencies who have similar scope of work. Those system are non-standardized, uniqueness, duplicated resulted in confusion among users due to contradicting of information.

2567
STANDARD

Moving toward to standardize, categorize all the systems, process, and technology resources in terms of management and data communication.

2568
OPTIMIZED

It is to eliminate all duplication of working process, unnecessary process and to be able to connect all process effectively, safely, and speedy.

2569
MODULARITY

It is to be able to continue develop the existing platforms and provide new services with continuity toward sustainable innovative development.

2570
MOE AS A PLATFORM

It is to be able to provide whole system service approaches through comprehensive information sharing and services as one stop service (e-Educational Hub)

Teacher Capacity Building

- The Ministry of Education has set up a three-year plan for teacher training focuses on building up the knowledge and skills of teachers on pedagogies, which are in line with active learning and literacy in language and digital skills.

- OBEC has also set up the Human Capital Excellence management Center (HCEMC) for strengthening teachers, educators and the capacity of educational personnel through online classroom training.
